- 1: large Gitzo tripod and ballhead
- 1: medium Gitzo tripod and ballhead

travel/prep/processing day - \$600*

Jobs with more travel/prep/processing than shoot days may incur additional equipment fees equivalent to the daily rental.

post production estimated at \$200/hour

All post production receives an estimate before work begins. As long as the scope of the job remains unchanged, estimate reflects final price. Changes to job requiring additional time made during post process are billed at \$200/hour. New charges to be approved by client before additional work is started or billed.

*Equipment listed represents maximum kit available at this package price.

Items not needed for job will not be brought to save on weight and space. All rates based on 10-hour day; \$150/hour overtime after 10 hours.

**Camera and lens options based on current inventory. If it's on the list, I can bring it; if it's not, I can rent it, but that will affect the final package price.

notes

Additional items from inventory, not included in package, can be added for daily and weekly rental rates.

Equipment packed in flight-ready cases under 70 lbs. (except Kartmaster hd-500)
